Computers and Biomedical Research provides researchers with up-to-date information concerning the use of computers in biomedicine.

Research Areas Include

- All areas in which computers and biomedicine intersect
- Automated classification of single and multidimensional patterns (diagnosis)
- Computer-based hospital communication
- The development of special techniques and devices for applying computer technology to biomedical systems
- Mathematical models of biological systems
- Physiological data acquisition
- The use of computers for automated control of biomedical environments

Endorsed by the American Medical Informatics Association
Endorsed by the American College of Medical Informatics

Sample copies are available upon request. For more information, please write or call:

ACADEMIC PRESS, INC.
Journal Marketing Department
525 B Street, Suite 1900
San Diego, CA 92101-4495, U.S.A.

ACADEMIC PRESS, LTD.
Marketing Department
24-28 Oval Road
London NW1 7DX, U.K.
In Europe call: 081-300-3322

All prices are in U.S. dollars and are subject to change without notice. Canadian customers: Please add 7% Goods and Services Tax to your order.
Reversal of Oxophenylarsine-Induced Inhibition of Glucose Uptake in MDCK Cells
B. Liebl, H. Mückter, E. Doklea, B. Fichtl, and W. Forth .................................................. 1

The Reproductive and Neural Toxicities of Acrylamide and Three Analogues in Swiss Mice, Evaluated Using the Continuous Breeding Protocol
Robert E. Chapin, Patricia A. Fail, Julia D. George, Thomas B. Grizzle, Jerrold J. Heindel, G. Jean Harry, Bradley J. Collins, and Janet Teague .......................................................... 9

Effects of Propylene Oxide on Nasal Epithelial Cell Proliferation in F344 Rats
Sandra R. Eldridge, Matthew S. Bogdanffy, Micheal P. Jokinen, and Larry S. Andrews .......... 25

Oncogetic Potential of Inhaled Hydrazine in the Nose of Rats and Hamsters after 1 or 10 1-hr Exposures
John R. Latendresse, Gary B. Marit, Edmund H. Vernot, Charles C. Haun, and Carlyle D. Flemming 33

Evaluation of the Developmental Toxicity of Ethylene Glycol Aerosol in CD-1 Mice by Nose-Only Exposure

Biochemical and Biophysical Characterization of Pulmonary Surfactant in Rats Exposed Chronically to Cigarette Smoke
S. Subramaniam, P. Bummer, and C. G. Gairola ............................................................... 63

Toxicokinetics of 2,3,7,8-Tetrachlorodibenzo-p-dioxin in Female Sprague-Dawley Rats Including Placental and Lactational Transfer to Fetuses and Neonates
Xuelin Li, Lutz W. D. Weber, and Karl K. Rozman ......................................................... 70

Studies on the Prenatal Toxicity of 3-Methyl-1-butanol and 2-Methyl-1-propanol in Rats and Rabbits Following Inhalation Exposure
H.-J. Klimisch and J. Hellwig ............................................................... 77

An Explanation on the Limited Efficacy of Detoxication against VX Toxicity by Purified Specific Antibodies
Wan-Guo Liao and Kang-Tai Rong ............................................................... 90

A Lifetime Oncogenicity Study in Rats with Acrylamide
Marvin A. Friedman, Linda H. Dulak, and Michael A. Stedham .................................................. 95

Central Nervous System Toxicity of Manganese. I. Inhibition of Spontaneous Motor Activity in Rats after Intrathecal Administration of Manganese Chloride
Russell T. Ingersoll, Erwin B. Montgomery, Jr., and H. Vasken Aposhian .................................. 106

Studies on the Tumor Initiation/Promotion Potential of Six Middle Distillates (MDs) in Mouse Skin
H. Jungen, W. Mellert, and R. Wenzel-Hartung .......................................................... 114

Determination of a No-Observed-Effect Level for Developmental Toxicity of Ethylene Glycol Administered by Gavage to CD Rats and CD-1 Mice

Immunosuppressive Activity of Polychlorinated Biphenyl Mixtures and Congeners: Nonadditive (Antagonistic) Interactions
N. Harper, K. Connor, M. Steinberg, and S. Safe ......................................................... 131

Continued
The Reproductive and Developmental Toxicity of Indium in the Swiss Mouse
Robert E. Chapin, Martha W. Harris, E. Sidney Hunter III, Barbara J. Davis, Bradley J. Collins, and Ann C. Lockhart ................................. 140

SHORT COMMUNICATION
Toxicokinetics of a Single 50 mg/kg Oral Dose of [2,3-14C]Acrylamide in White Leghorn Hens
Gregory M. Blumenthal, Ali A. Abdel-Rahman, Kenneth R. Wilmeth, Marvin A. Friedman, and Mohamed B. Abou-Donia ................................................................. 149

ANNOUNCEMENTS ................................................................. 154
